# THE DEFROSTERS

Live music entertaining crowds from coast to coast

*"These boys brought their groove from the snow to the sand - they know how to entertain and keep the dance floor packed." -*  
**Mike Bounds, President Northwest Florida Blues Society**

*"The Defrosters is one of the most professional bands I've seen in Alaska. We sure were lucky to have them while we could!" -*  
**Todd Glazer Promotions, Anchorage, Alaska**

*"This music is appealing and relates to everyone on a fundamental level. Highly original and never far from my CD player!" -*  
**Roger Bolin, Director, KROK FM Radio**

## The Story:

**Brrrrr....** in the chilly arctic winter of 2005, Andy Toth (drummer) started The Defrosters in an effort to heat things up in the Alaskan music scene. With seasoned performers Mike Johnson on guitar and Bob Renke on bass, The Defrosters quickly found their unique "southern soul" inspired sound.

After completing recording sessions in **Nashville**, The Defrosters relocated to warmer waters and finally settled in **Foley, Alabama** in 2016. Their unique mix of **Reggae, Blues, Rock, Bluegrass, Americana, Soul and original songs** help set this band apart from others with an entertaining show that has a proven track record of success.

Over the years The Defrosters have performed at major festivals and events including the **National Shrimp Festival, Foley BBQ & Blues Cookoff, Gulf Coast Hot Air Balloon Festival, Alaska State Fair, The Great Alaskan Beer & Barley Wine Festival**, as well as numerous venues including private, corporate and charity events and local service organizations.
